about \$42,000. Members of the Councit who opposed the \$1.25 rate and a
dvocated the \$1.25 rate argued that this rate would cover cost of manufacture and handling and contended that the plant should not be used to produce a revenue.

Against this argument, however, was a statement coming from the Gaz Department that since Mr. Trafford's estimate was made up about one month ago cost of coal has advanced, and it is probable that there will be still further advances. Councilinan Jones, who opposed the \$1.35 rate and offered the amendment making the rate \$1.25, which was adopted, contended that the gas plant had made money for the city in years past, and that an extra tax should not be placed on the consumers now that the plant is not making a surplus. that the plant is not making a sur-

founcilman Jones and others who favored his amendment argued that under the Mills amendment making the rate effective at once the denoit a)ready accumulated would be re-duced considerably, and that the rate proposed would take care of any fu-ture deficit based, of course, on present cost of coal and oil. He did not believe that there would be further material increase in costs of these

commodities.
It is probable that a special meeting of the Board of Aldermen will be called early next week to con-Filder the ordinance.
